#### Double Patenting Rejection

Claims 1-3, 6, 11-16, 18-26 and 29-30 are rejected under the judicially created doctrine of obvious-type double patenting as being unpatentable over Claims 1-18 of US Patent 6,544,499 in view of Zysman et al (US 5,362,494) and claims 1-19 of US Patent 6,703,007 in view of Zysman et al (US 5,362,494). Applicants respectfully submit that a timely filed Terminal Disclaimer over these common owned patents would overcome the rejection.

Responsive to this rejection, a Terminal Disclosure under 37 C.F.R. 1.321(c) for the above-entitled patents which specifies that the Petitioner disclaims the terminal part of the statutory term of any patent granted on the instant application, which specifies that the Petitioner disclaims the terminal part of the statutory term of any patent granted on the above entitled application which would extend beyond the expiration date of the full statutory term defined in 35 U.S.C. §154 to §156 and §173 as shortened by any terminal disclaimer filed prior to the grant of any patent granted on US Patent 6,544,499 and US Patent 6,703,007. Claims 1-3, 6, 11-16, 18-26 and 29-30 are directed to an invention not patentably distinct from claims 1-18 of commonly assigned US 6,544,499 or claims 1-19 of commonly assigned US 6,703,007. The Examiner has stated that in order for the Examiner to resolve this issue, the assignee can, under 35 U.S.C. 103(c) and 37 CFR 1.78(c), either show that the conflicting inventions were commonly owned at the time of the invention of this application was made, or name the prior inventor of the conflicting subject matter.

Applicants respectfully submit that commonly assigned US Patent 6,544,499 and US 6,703,007 were commonly owned at the time the invention in this application was made. Applicants provide the recordation of assignments for each of the applications as follows:
